Repeating Crumley: Day 9

ANTHONY SALVAGNO

99.9% D2O

66% D2O

33% D2O

DI WATER
Nothing new to report. It looks like the 99% D2O seeds still haven’t sprouted which is what should happen (contrary to Crumley’s report). Everything else is growing as expected. And as usual there is nothing in the sample with no seeds.
