I'm Steve Bernard, Interactive Design Editor at the Financial Times. AMA on cartography and dataviz in the newsroom

Hi there, I work in the graphics department at the Financial Times website/newspaper where I have worked for over 22 years and have seen many changes in this industry over my career. My main area of interest is in cartography but you can ask me anything you want with regards to visualising data, telling stories with data, processes, software, working in a newsroom, how I got into data visualisation.

Check out these links of previous work

China's polluted skies
Air pollution: why London struggles to breathe
Japan: the next big quake
Sand castles on Jersey shore: property boom defies US flood risk
Data visualisation: how the FT newsroom designs maps
Global M&A exceeds $3tn for fourth straight year
Apple tests new iPhone price threshold at $999
Germany's election results in charts and maps

Due to the overwhelming response to a few of my recent posts on r/dataisbeautiful I thought it would be a good time to host an AMA

Pollution in London
3D animation of pollution in China
Animation of flooding caused by Ilisu Dam

The AMA is still in progress

I'm Steve Bernard, Interactive Design Editor at the Financial Times. AMA on cartography and dataviz in the newsroom is still ongoing! After the AMA is finished it will be permanently archived, assigned a digital object identifier (DOI), and formatted as a white paper.
I'M STEVE BERNARD, INTERACTIVE DESIGN EDITOR AT THE FINANCIAL TIMES. AMA ON CARTOGRAPHY AND DATAVIZ IN THE NEWSROOM: REDDIT

To publish your own ideas and research, sign up [here](#)! We bring traditional scholarly publishing tools (DOI & permanent archival) to blogs, essays, grants, protocols, how-to's, essays, and other media, including reddit AMAs, because scholarly communication doesn't just happen in scholarly journals.
